

St. Andrew's Episcopal Church
31 Lynn Street, Harrington Park, NJ 07640
Space Available for Rental

Lower Level

This 2,000 square foot area has been used in different ways by several tenants, including as classrooms for a school. When last used that way, four classrooms of varying sizes held from six to 20 students. A small microwave and refrigerator are permitted if needed.

Most recently, the space was modified to remove some of the classroom walls to create three larger rooms for use by a dance instruction studio.

When availability permits, the large parish hall on the upper level and the side yard may be used for special functions upon request.

Parking for up to 40 cars is available across the street.

Upper Level Sanctuary

The sanctuary provides seating for up to 180 people in pews. St. Andrew's Church worships in this space on Sunday mornings as well as during holidays and other special occasions. Previous tenants have been churches that have utilized the space during Sunday afternoons and other times, as determined with St. Andrew's to prevent conflicts in times of usage.

The sanctuary is accessible by stairs or ramps from the outside.

A choir loft includes a Moeller organ, with space for a choir. A piano is located between the front pews and the altar.

A separate women's and men's rest rooms are located next to the library, which is adjacent to the sanctuary.

A large parish hall on the upper level and the side yard may be used, along with an adjacent kitchen. A separate accessible restroom is available next to the parish hall.
